To whom it may concern

I am writing to recommend Dr. I.L.M. Zahir for the NSF Postdoctoral Research Fellowships. Having known Dr. Zahir for the past seven years as an academic staff member at the South Eastern University of Sri Lanka, I have had the privilege of witnessing his academic prowess, dedication, and passion for academic endeavors. During his academic journey, he consistently exhibited remarkable intellectual curiosity and a strong analytical mindset. He has showcased not only their academic acumen but also their ability to think critically and creatively when confronted with complex challenges.

Beyond his academic achievements, Dr. Zahir possesses a remarkable work ethic and an insatiable drive for personal and professional growth. He actively sought out opportunities for experiential learning, where he excelled in applying theoretical concepts to real-world scenarios in GIS. Moreover, his leadership skills were evident in his role, where he effectively collaborated with peers, facilitated discussions, and spearheaded initiatives. One of his most commendable attributes is their passion for learning and commitment. He has consistently demonstrated a deep commitment to making meaningful contributions to the field. His enthusiasm is infectious, and they have a natural ability to inspire and motivate their peers.

Based on my interactions with Dr. Zahir, I do not have any doubt that he has the intellect, drive, and character to thrive in the postdoctoral program. I wholeheartedly recommend him for admission and am confident that he will make significant contributions to the academic community and excel in his future endeavors.

Please feel free to contact me if you require any further information. Thank you for considering Dr. ILM. Zahir for this prestigious NSF postdoctoral program.

Sincerely,

Dr. Muneeb M. Musthafa,
Senior Lecturer,
Department of Biosystem Technology,
Faculty of Technology,
South Eastern University of Sri Lanka.
Oluvil, Sri Lanka.
